Timothy Rhoades (Applied Safety and Ergonomics)  
Steven Hall (Applied Safety and Ergonomics)  
Paul Frantz (Applied Safety and Ergonomics)  
Stephen Young (Applied Safety and Ergonomics)**

## **SUMMARY OF MEETING:**

**The meeting began about 2:30 PM in room 410. The objective of the meeting was to facilitate a discussion between Dr. Paul Frantz and the HF staff of the U.S. CPSC regarding the development of a new ANSI standard, Z535.6. The new standard will address the use and design of warnings in product instructions. Dr. Frantz is chair of the subcommittee responsible for developing the new draft standard. Dr. Frantz and Dr. Rhoades presented several charts outlining some of their preliminary ideas and the HF staff commented and made suggestions. The meeting was adjourned about 4 PM.**
